

# **PLUMBING PLAN REVIEW REQUIREMENTS**

In order to perform a thorough Plumbing Plan Review, the following specifications, drawings and details should be submitted:

**Complete plans and specifications of all plumbing work.**

**Plumbing fixture and piping material specifications including identification of the applicable referenced standard.**

**Plumbing fixture information to include:**

1. The occupant load used to determine the number of required plumbing fixtures.
2. Number and distribution based on the use group.
3. Accessible plumbing facilities and details.
4. Anti-scald shower valves.

**Plumbing piping plan showing layout, pitch of drainage lines, cleanouts, size of traps, and riser diagram.**

**Water supply and distribution plan showing piping sizes, valves, water heater details and temperature-pressure relief valve with discharge pipe.**

**Sanitary drainage and vent system riser diagram showing drainage fixture units (dfu), sizes and vent termination details through the roof.**

**Potable water system riser diagram showing piping sizes and provisions for protection of potable water supply.**

**Piping support and installation schedule.**

**Storm drainage details including rain gutter or roof drain sizes and downspout/leader sizes.**

**Health care plumbing and fixture details.**
